KRH

ESTABLISHED 1991

KRH ENGINEERING SERVICES

ABOUT KRH ENGINEERING

Delivering excellence and mission success since 1991, KRH provides its clients in both the public and the private sectors with a broad range of services which include Integrated HR & Life Support Services, Integrated Facility Management (IFM) and Engineering Services. To best serve the region, KRH has presence and offices in Kuwait, KSA, UAE, Qatar, Bahrain, Jordan and Iraq; totaling 500 core staff and over 8,000 employees deployed in various projects with clients.

KRH Engineering Services has established an outstanding track record of support for the needs of our clients. From its inception, KRH Engineering has been dedicated to providing our clients with timely, responsive, and affordable solutions to their challenging and complex requirements.

KRH specializes in overseas construction solutions characterized by strict compliance to regulations, specifications, and international building codes, and our team of highly skilled professionals is able to offer technical turnkey solutions tailored to meet the specific requirements of our clients.

As a trusted partner to our clients, we provide defense system integration, life cycle and logistics management support, systems engineering, software engineering, and training course development. With vast experience in the corporate logistics domain, KRH engineering services include professional acquisition, sustainment, and modernization.

KRH is able to offer key technical solutions by providing simple to complex workforce housing complete with catering, operation and maintenance through all phases of the design and construction process. We offer a wide variety of blast-proof structures, advanced surveillance systems, and complex secure IT networks.
